

# HARRISON HOT SPRINGS

*Naturally Refreshed*

## PUBLIC NOTICE

### WATER TREATMENT PLANT MAINTENANCE

The Village's Water Treatment Plant will be performing maintenance during the week of February 3-10, 2023. Water Treatment Plant maintenance is a key component to maintaining the highest level of water quality throughout the Village's distribution system.

During the maintenance period, there may be a brief reduction in pressure. Should you experience discolouration or sediment in your tap water, let the water run until clear. These conditions are temporary and will dissipate over time.

For further information or to report any water issues, please contact the Village Office at 604-796-2171.

**Maintenance Schedule: February 3 - 10, 2022**
