

HARRISON HOT SPRINGS

Naturally Refreshed

PUBLIC NOTICE

2023 Freshet Update

May 11, 2023

The River Forecast Centre is predicting that the Harrison Lake, Fraser River and Harrison River levels water levels will continue to increase over the following days however issues are not expected in Harrison Hot Springs at this time. Residents are reminded to stay away from riverbanks, dikes and fast flowing bodies of water as level may rise quickly.

Please follow our website for updates on issues that may affect the village and subscribe to the Alertable Notification System. <http://www.harrisonhotsprings.ca>

If you do not already have an emergency plan in place for your household, now is an excellent time to create one. More information on emergency planning can be found at <https://www2.gov.bc.ca/gov/content/safety/emergency-preparedness-response-recovery/preparedbc/make-your-plan>
