FireSmart

We are proud to offer complimentary FireSmart home assessments to residents in our community through the FireSmart BC Wildfire Mitigation Program!

What to expect:
A property-specific wildfire risk assessment that identifies actionable recommendations

Ready to get started?
Request an assessment by sending an email to firesmart@harrisonhotsprings.ca or by completing the request form at firesmartbc.ca

Water Restrictions

Please be advised that water restrictions are in effect from **June 1 - September 30, 2025.** Conserving water ensures sufficient capacities for fire protection and household needs.

Lawns can be watered on:
Addresses ending in an EVEN #:
Tuesday and Saturday

Addresses ending in an ODD #:
Wednesday and Sunday

Watering times:
5a.m. - 8a.m. and 7p.m. - 10p.m.

Get Into It Harrison

Get Into It Harrison is the Village's online engagement portal where you can help shape and learn about the projects that impact you!

Featured projects include:
Storm Sewer Infrastructure Projects, Waterfront Dike Upgrade Project, and the Village Health Centre.

Visit **www.getintoitharrison.ca** for more information on these projects and more!

Property Maintenance

Late summer is the best time to treat **Japanese Knotweed.** This invasive and aggressive plant can cause damage to the natural habitat of native species, and to properties and structures. Did you know that mowing or weed-eating can ***make it worse?***

Check out **www.bcinvasives.ca/invasives/japanese-knotweed** for more information about how to prevent and properly treat Japanese Knotweed to protect both biodiversity and your property.

If you see maintenance required anywhere in our Village or have a concern with greenways, public washrooms, etc., contact us through the online concern forms available at: www.harrisonhotsprings.ca or scan the qr code to submit your concern.

Water Safety

Summer is a busy season on beautiful Harrison Lake! Here are some things you can do to protect yourself and your loved ones and make sure that everyone can safely enjoy a day out on the water.

Prevent Drowning: 70% of fatal drownings in Canada occur in open water. Stay safe in lakes, rivers, and oceans by being prepared and cautious. Knowledge and vigilance are key to enjoying the water safely.

Don't Just Pack It, Wear It: Always wear your lifejacket near the water. It's a small step that makes a big difference in saving lives.

Practice Safety on the Water: Check out Transport Canada's Safe Boating Guide.

Know Before You Go: Harrison Lake is a large, glacier-fed lake where conditions can change quickly. Be sure to check the weather forecast and plan ahead.
